## About Me

---

I am currently a 3rd-year Computer Science and Engineering student driven by an insatiable curiosity for the tech world. My journey isn't defined by a single niche but by a broad spectrum of interests that fuel my growth. I am deeply passionate about Web Development, Cybersecurity, AI/ML, and Data Science, while also exploring the realms of Android Development and Competitive Programming.

Beyond the code, I am an active advocate for Open Source and believe in the power of community-driven innovation. I also have a growing interest in research, where I enjoy diving deep into concepts, exploring new ideas, and contributing to meaningful advancements in technology.

I embrace the creative and strategic sides of tech, with a keen interest in Design, Marketing, and SEO. My ambition extends beyond just engineering; I possess a strong entrepreneurial spirit and a startup mentality, constantly looking for opportunities to solve real-world problems and build scalable businesses.

I believe that a healthy mind lives in a healthy body, which is why I am an avid enthusiast of both indoor and outdoor sports. This active lifestyle complements my work, keeping me energized and focused. Coupled with strong communication skills, I thrive in collaborative environments, bridging the gap between technical complexities and human understanding.

I may not claim to be an expert in every field just yet, but I am a dedicated learner who loves to connect the dots between different disciplines. Whether it's contributing to open-source projects, leading a team through a hackathon, diving into research, or brainstorming the next big startup idea, I am always eager to explore, learn, and create.

## Technical Skills

---

### • Frontend Development

Next.js • React • TypeScript • Tailwind CSS • HTML/CSS

### • Backend Development

Node.js • Python • Express.js • PostgreSQL • Firebase

### • Tools & Technologies

Git • VS Code • Docker • Vercel • Figma

### • Soft Skills

Problem Solving • Team Collaboration • Communication • Time Management • Adaptability

## Experience

---

### Team Leader/Project Manager

RUET

N/A - Present

Led team projects, coordinated with team members, managed timelines, delivered successful outcomes

### Tutor/Actor

Self-Employed

N/A - Present

i teach the students science subjects alongside English and some other subjects.

i try to make every concepts easier to understand for the students

### Class Captain

School

N/A - Present

i used to be a classcaptain at my school

and used to monitor the class.

## Education

---

### School

A.I.A.S.C.

2009 - 2019

Graduated with honors. Active in computer science club.

### College

Thakurgaon Govt College

2019 - 2021

Graduated with honors and got 600/600 marks in the final (board) exam

### Bachelor of Science

Rajshahi University of Engineering & Technology

2022 - Present

Focused on software engineering, algorithms, and web development. Completed capstone project on building a full-stack e-commerce platform.

## Key Projects

---

### E-Commerce Platform

A full-featured online shopping platform with payment integration

Next.js

TypeScript

PostgreSQL

Stripe

Tailwind CSS

### Task Management App

Collaborative task management tool with real-time updates

React

Firebase

Material-UI

Node.js

## Weather Dashboard

Interactive weather forecasting application

[React](#)

[TypeScript](#)

[OpenWeather API](#)

[Chart.js](#)

## Achievements

---

- Hackathon Winner - 1st place at Tech Hackathon 2023 for building an AI-powered study assistant
- Dean's List - Recognized for academic excellence (4 consecutive semesters)
- Open Source Contributor - Active contributor to popular open source projects on GitHub

## Certifications

---

### AWS Certified Developer - Associate

[Amazon Web Services](#)

Jun 2023

### Meta Front-End Developer Professional Certificate

[Meta \(via Coursera\)](#)

Dec 2022
